BICC General & RF Connectors Cross Reference

Cable to Connector Cross Reference

RF Connectors, Division of RF Industries, 7610 Miramar Road, San Diego, CA 92126-4202 For product information call (800) 233-1728 or (858) 549-6340, Fax: (858) 549-6345 E-mail: rfi@rfindustries.com Web: www.rfindustries.com

HOW TO USE THIS MANUAL

This manual is organized first by BICCGeneral Cable groups and second by the types of RFI connectors available for those groups. The connectors are divided into subgroups by type.

Each connector listing contains the RFI part number, the description and the materials used for each connector. The materials listings consist of the body, shell, pin/contact, and dielectric.

The Cable Number Locator below is supplied for easy cross-referencing by cable number to page number. Please see the Example below.

Example:

You need to know if RFI has an N Male Clamp Solder Plug for BICCGeneral C5770.

Refer to the table below for BICCGeneral C5770. Go to page 8. Under the heading for BICCGENERAL C1110, C1112, C1135, C1161, C1162, C1163, C1164, C1165, C5755, C5770, C6141, C6144, C6201 you will find RFN-1904-1N and RFN-1904-1S.

From the description and the materials information you are able to determine if one of these connectors works for your application. The legend at the top of page two explains the material codes used in this manual.

Part numbers with an * are special order only. If you have special requirements, please contact RF Industries' sales department for assistance.
